October 14, 2003

Dear Sir:

The above-captioned application was filed today, October 14, 2003 by electronic filing using USPTO-sanctioned third party software provided by Auto-Docs, Inc. LLC.

When validating the electronic filing package, the proper claim to priority to a previously filed Provisional Application for patent would not validate. However, when the priority relationship was changed to a continuation application, the electronic package was validated, and was able to be filed electronically.

It is not clear to the undersigned whether the electronic filing problem is due to the USPTO software, or to the third party software.

Consequently, the Application Data Sheet (ADS) submitted electronically did not list the proper claim to priority, as reflected in the first paragraph of the Specification, and as indicated on the Declaration signed by the inventor.

Submitted herewith is a Supplemental ADS to provide the correct claim to priority as correctly indicated in the Specification and in the Declaration.

Applicant believes no fee is due with this response. However, if a fee is due, please charge our Deposit Account No. 22-0185, under Order No. 22137-00003-US1 from which the undersigned is authorized to draw.

Respectfully submitted,

By Larry J. Hume
